## Bullard Re-Defines Comfort, Style, and Protection in New Bump Cap

CYNTHIANA, KY - Bullard, the inventor of the hard hat, introduces a new lightweight, sleek design Bump Cap offering users greater comfort, durability and protection. This latest head protection offering from Bullard is the result of direct input received from everyday users in the field.

Made of high-density polyethylene, the new Bullard Bump Cap is equipped with a technologically -advanced double hoop design for added reinforcement and durability. In addition, the Bump Cap offers users an easy-to-assemble, multi-adjustable suspension with user replaceable brow pad that securely keeps the cap comfortably on the wearer's head. The Bump Cap is ideal for use in a variety of applications including Automotive Service Centers, Food/Beverage Processing, Meat Packing, Maintenance, Distribution Centers, Aviation, and Transportation.

Enhanced Bump Cap features include:

- Adjustable inner suspension accommodates the widest array of head sizes of any bump cap on the market ranging from 6 <sup>3</sup>/<sub>8</sub>" to 8 <sup>1</sup>/<sub>4</sub>".
- Accommodates a two-point chinstrap.
- Accommodates Bullard face protection products including the 300B and 300BW brackets.
- Interchangeable brow pad available in soft vinyl and absorbent poly.
- Compatible with all Bullard visors.
- Four logo option locations.

The Bump Cap is available in a wide variety of colors and can be customized with pad printed logos from the Bullard Logo Shop, offering the industry's quickest delivery turnaround. In fact, the new design of the Bump Cap now offers customers additional logo placement options. Logos can be pad-printed on four locations, including front, sides and back of the cap.

Founded in 1898, Bullard is a leading manufacturer of personal protective equipment and systems worldwide.
