

Versatility with Free-Air® Pumps

Bullard's Free-Air Pumps offer blasters a low-cost solution to clean, breathable air when blasting in contaminated environments. To keep blasters cool, add the ICE Pump to any GenVX system for a portable blast solution from job site to job site. Bullard offers a variety of pump options to choose from.

Your Total Blasting Solution

Customize your blasting needs with a wide variety of Bullard certified pumps and breathing air filtration options for multiple work environments. Versatility matters and that's why our pumps and breathing air filtration systems are mobile friendly to go where you go. Whatever your environment, Bullard has a blast solution for you.

All-in-One GenVX System

Pair the GenVX with one of Bullard's Clean Air Box (CAB) options for high-performance particulate filtration and continuous Carbon Monoxide (CO) monitoring to keep workers safe. Choose CAB systems that are portable, enclosed or fixed wall mount units.

Oversized Lens for Better Viewing

Choose lens preferences in clear or tinted options. Peel-off adhesive lens covers let blasters quickly change out their lens without losing valuable blast time.

Quick Cape Attachment

Capes easily and quickly attach to the GenVX Blast Helmet for a secure fit. Choose Nylon Capes or Hibernia Parika in 28" or 38" lengths.

Stay Cool

GenVX cool tubes chill the air by as much as 30° F for greater comfort and reduced body stress when blasting. Choose from three cool tube options.
