

Bullard Company Profile

Bullard is a manufacturer of high-quality personal protective equipment and systems designed to help save lives around the world. Serving workers in the industrial, fire service and law enforcement markets, Bullard is a leader in manufacturing thermal imaging devices, hard hats, firefighter and rescue helmets, supplied air respirators, powered air-purifying respirators, and air quality equipment. Bullard is proud to manufacture its products in Cynthiana, Kentucky, USA.

Market Leader

Bullard has remained a manufacturing leader in its markets for more than 115 years. The Company maintains its competitive edge through advanced engineering technologies, research and development, and value-added services to develop the most sophisticated, quality-driven products designed with worker safety in mind.

Legacy

From the time Bullard invented the hard hat in 1919, our Company began a legacy of creating products that are uniquely designed with input from our customers. We are a Company that knows the specific needs of the industrial and fire service markets. Bullard's Industrial and Emergency Responder products reflect that knowledge and experience. With Bullard products, you'll find the ultimate in toughness, comfort, simplicity, and durability. You'll also find extraordinary service and the most innovative designs.

Thermal Imaging

Bullard has combined the best thermal imaging technology with our expertise in high-heat, impact-resistant thermoplastics to provide the toughest, most reliable thermal imaging cameras available. Bullard Thermal Imagers are the leading choice of firefighters worldwide and we have the most comprehensive set of accessories, training materials, and reference information you'll find anywhere.

Fire Helmets

Building on the expertise we developed manufacturing hard hats, Bullard began manufacturing structural firefighter helmets in the 1930s. Drawing upon that expertise and utilizing a variety of heat-resistant materials, Bullard offers the broadest range of both structural and wildland helmets available today. In addition, Bullard offers cutting-edge accessories like the TrakLite® integrated helmet lighting system.

Respiratory Protection

We developed airline respirators for the construction of the Golden Gate Bridge. Since then, our line of respiratory protection equipment has expanded to include powered air-purifying respirators, continuous flow as well as pressure-demand airline respirators, breathing air filters and monitors, and a range of breathing air pumps and compressors.

Head Protection

Bullard invented the hard hat in 1919 – and our commitment to manufacturing the very best hard hat shows. All Bullard hard hats and helmets have been carefully engineered to deliver superior performance, comfort, quality, customization, and durability.

Family-Owned Company

Headquartered in Cynthiana, Kentucky, Bullard is a fifth-generation family-owned company led by its CEO Wells Bullard, President and COO Peter Lugo, and Chairman of the Board, Edward "Jed" Bullard. The Company's products are available throughout the world from a network of distributors operating in most major country markets. Bullard maintains sales offices in Europe and Asia in addition to its headquarters in Cynthiana, Kentucky, USA.
