Quality
Designed with you in mind, Bullard fire helmets offer durability, design, and dependability. Bullard fire helmets are built to last.

Comfort
Made with adjustments for fitting, Bullard fire helmets are designed for a comfortable fit and offer removable parts for easy replacement.

Choices
Bullard offers the most expansive line of head protection for structural, ARFF, wildland, and emergency/search and rescue applications in the world.

Expertise
Known for our engineering and design expertise, Bullard puts protection and comfort at the forefront of our products.

Innovation
Leading the market in innovation since the launch of the first fiberglass fire helmet in 1947, Bullard introduced the first thermoplastic fire helmet, first optically correct faceshield, and first fully integrated helmet lighting solution.

Best in Class Warranty
Bullard offers a best in class warranty. Bullard warrants to the original purchaser that the firefighter helmet and non-electronic components are free of defects in materials and workmanship under normal use and service for a period of five (5) years from the date of manufacture on the helmet shell and lifetime (as defined in NFPA 1851: 10 years) warranty on the non-electronic components.

www.bullard.com
The ReTrak Helmet Series offers emergency responders a fire helmet with an integrated visor engineered based directly on feedback from firefighters.

ReTrak Features:
- Simple one-handed operation
- Easily accommodates eyewear
- Increased area of protection
- Comfort nosepiece
- Quick removal for cleaning
- Made in the USA

Traditional UST/USTM and PX/FX ReTrak Helmets are now available and meet NFPA 1971/ANSI/ISEA 287.1+ requirements.
UST Series structural firefighter helmets provide classic traditional style in an affordable, easy-to-maintain design. With an outer shell made of Thermoglas®, the UST offers toughness and durability. Chipping and cracking found in conventional fiberglass is virtually eliminated. Thermoglas qualities also include the highest level of chemical resistance and stability at extreme temperatures.

Available in either glossy finish (UST) or a matte finish with a textured, nonglasy look (USTM), the UST Series helmets are the preference of the traditional firefighter. Get the look of a leather helmet with the protection of an NFPA 1971 certified model. UST helmets are available with ReTrak™ and TrakLite®. See page 15 for details.

**Standard Features**
1. Special Thermoglas® outer shell
2. M-Pact Plus inner liner system
3. Replaceable brass eagle or Canadian maple leaf
4. Custom leather front (sold separately)
5. 4” optically correct faceshield or ESS goggles
6. Nomex® ear/neck protector
7. Chinstrap with postman’s slide
8. Sure-Lock® ratchet headband with comfort brow pad
9. Leather ratchet cover (not shown)
10. Scotchlite® reflective markings
11. Brass D-ring
12. Crown straps with crown pad
13. U-Fit system with 36 comfort settings

**Optional Features**
- ReTrak Integrated Helmet Visor
- TrakLite Integrated Helmet Lighting

**UST Series Striping Options Offer Additional Accountability**
- Lime-Yellow Scotchlite® Retroreflective Stripes
- Red-Orange Scotchlite Retroreflective Stripes
- Lime-Yellow Triple Trim Scotchlite Retroreflective Stripes
- Red-Orange Triple Trim Scotchlite Retroreflective Stripes

**NFPA 1971 Certified**
The FX and PX Series from Bullard offers a lightweight contemporary look with a lower profile and less restrictive, compact design than traditional styles. FX and PX Series helmets comply with NFPA, Australian, and European requirements, as well as advanced military fire standards.

**FX Series**
FX composite helmets are resistant to chemical attack and stable under high heat exposure. Featuring color pigment that is molded directly throughout the outer shell, nicks and chips are less visible.

**PX Series**
The PX helmets have an advanced, specially formulated, high-heat thermoplastic outer shell, which makes the PX the ideal fire helmet for heavy duty applications. No other fire helmet has the proven on-the-job performance or long-lasting durability of the PX.

The FX and PX Series Helmets are available with ReTrak and TrakLite®. See page 15 for details.

**Standard Features**
1. Fiberglass (FX) or Thermoplastic (PX) outer shell
2. M-Pact Plus liner liner system
3. 4” optically correct faceshield or ESS goggles
4. Nomex® ear/neck protector
5. Chinstrap with postman’s slide
6. Sure-Lock® ratchet headband with comfort brow pad
7. Leather ratchet cover (not shown)
8. Scotchlite® reflective markings
9. Stainless steel D-ring
10. Crown straps with crown pad
11. U-Fit system with 36 comfort settings

**Optional Features**
12. ReTrak Integrated Helmet Visor
13. TrakLite Integrated Helmet Lighting

NFPA 1971 Certified
EN443 Certified (FXE)
AS/NZS 4067 (PXAS)

www.bullard.com
The LT Series is an advanced, lightweight, thermoplastic structural fire helmet that incorporates 20 years of Bullard polymer technology and engineering expertise. Beyond the compact, low-profile design, the LT Series features the innovative Quick-Attach Blade System for rapid installation and removal of both faceshields and goggles without any tools. Simply press on or off the faceshield or goggle in seconds, creating flexibility to choose the right option for the right application.

The LT offers the lightest configuration in an NFPA 1971 compliant fire helmet on the market. Experience a reduction in stress and fatigue with this lightweight helmet, without giving up performance. The LT Series Helmets are available with TrakLite®. See page 16 for details.

LT Series Helmets

877-BULLARD (295-5273) • +1-859-234-6616

www.bullard.com
AX Series helmets are engineered specifically for the adverse environmental conditions during proximity fire fighting incidents that release high levels of radiant, convective, and conductive heat.

The standard AX model is based on either the FX, UST, or USRX or structural fire helmet platform. When combined with an aluminized helmet shell cover, aluminized shroud, and a 6" gold-coated faceshield, it meets the proximity fire fighting protective helmet requirements of NFPA 1971.

**Standard Features**
1. Fiberglass or Thermoplastic (USRX) outer shell
2. Inner liner system
3. 6" gold-coated faceshield
4. Sure-Lock® ratchet headband with comfort brow pad
5. Aluminized helmet cover
6. Standard aluminized shroud
7. Crown straps with crown pad
8. U-Fit system with 36 comfort settings

**NFPA 1971 Certified**

FH911C Series Helmets
The C Series is the traditional cap style wildland helmet. The lightweight, low-profile design offers superior protection in all wildland firefighting conditions. FH911C Series helmets exceed all NFPA 1977 requirements, as well as ANSI/ISEA Z89.1, Type I, Class E & G.

FH911H Series Helmets
Bullard H Series is a full-brim style wildland helmet. With a 360-degree brim, the H Series provides additional protection from sunlight, as well as airborne debris. FH911H Series helmets exceed all the requirements of NFPA 1977 as well as ANSI/ISEA Z89.1, Type I, Class E & G.

FH911XL
Same as Model FH911H with extra-large full-brim thermoplastic shell. Available with ratchet suspension only.

**NFPA 1977 and ANSI/ISEA Z89.1, Type I, Class E & G Certified**

Wildfire® Series Helmets

Wildfire Series Striping Options Offer Additional Accountability
- Lime-Yellow Scotchlite® Retroreflective Stripes
- Red-Orange Scotchlite Retroreflective Stripes

www.bullard.com
USRX
Urban Rescue Helmet

USRX rescue helmets are engineered for extreme search and rescue conditions. Featuring a streamlined design, USRX rescue helmets incorporate recommendations from USAR teams and other rescue professionals. The result is an integrated assembly of advanced materials and quality components that provide superior head protection, comfort, and long-lasting durability. The USRX is dual certified to meet both NFPA 1951 and NFPA 1971 for Urban Search and Rescue and Structural Firefighting.

**Standard Features**
1. High-heat Thermoplastic outer shell
2. M-Pact inner liner system with SmartRidge design
3. Quick-Attach blade system
4. ESS goggles or 4” faceshield
5. Nomex® ear/neck protector
6. Three-point chinstrap
7. Sure-Lock® ratchet headband
8. Leather ratchet cover (not shown)
9. Four-point crown strap assembly
10. Li-FX system with 36 comfort settings

Advent® Series
Rescue Helmets

The Advent® helmet offers paramedics, emergency medical personnel, hazardous response teams, and search and rescue personnel a revolutionary concept in head protection. This helmet provides top, front, side, and rear impact and penetration protection. Advent meets and exceeds ANSI/ISEA Z89.1, Type II, Class E & G requirements and is half the weight of conventional firefighter helmets.

**Advent® Series Rescue Helmets**

**Standard Features**
1. High-heat Thermoplastic outer shell
2. M-Pact inner liner system with SmartRidge design
3. Quick-Attach blade system
4. ESS goggles or 4” faceshield
5. Nomex® ear/neck protector
6. Three-point chinstrap
7. Sure-Lock® ratchet headband
8. Leather ratchet cover (not shown)
9. Four-point crown strap assembly
10. Li-FX system with 36 comfort settings

Magma® Series Helmets

Magma® helmet system is based on a platform that enables firefighters to configure their individual helmet. Whether a type A half-shell helmet or type B three-quarter-shell helmet, the construction kit offers it all, while keeping the design thoroughly consistent and lightweight. The system allows for customized choices without compromising comfort, safety, and functionality.

**Magma® Helmets**

- EN 443 Certified
- Visor and Eye Protection is EN 14458 Certified

**NOTE:** While Magma helmets are not NFPA-compliant, Bullard European style FX (FXE) complies with NFPA and CE requirements.

**Standard Features**
1. Fiberglass outer shell
2. Spacious inner visor
3. Customizable front frame
4. Polyurethane inner liner
5. Ratchet head ring
6. Flashlight adapter
7. Chin Strap
8. Nomex® ear neck protector (non-standard)
Fire Helmet Accessories

Goggles
Eye Safety Systems (ESS) brand of goggles are available in a variety of designs to meet any structural, rescue and wildland requirements for eye protection. Bullard, in conjunction with ESS, has developed and certified specific ESS goggles for use with all Bullard helmets. These high performance goggles provide additional eye protection options that can address primary eye protection issues defined in NFPA 1500, OSHA Standards 29CFR, and ANSI/ISEA Z87.1 requirements.

Faceshields
Available in 4- and 6-inch sizes, Bullard offers faceshields to fit any structural, ARFF, and rescue application.

Bourke Eyeshields
Bourke eyeshields (Non-NFPA) are available for purchase.

ReTrak™ Integrated Visor
The ReTrak Helmet Series offers emergency responders a fire helmet with an integrated visor that easily accommodates eyewear and features a simple one-handed operation. ReTrak is available for Bullard’s UST/USTM Traditional and FX/PX Modern Helmets.

TrakLite® Helmet Integrated Lighting
Bullard’s UST, FX, PX, and LT are available with TrakLite® helmet lighting. Featuring eight forward-facing, long-lasting, bright LED lights, TrakLite is the only light on the market that is integrated into the helmet design for excellent weight balance and illumination.

* TrakLite is CSA-certified Nonincendive Electrical Equipment for use in Class I, Division 2 Hazardous Locations.

Ear/Neck Protectors
Standard on many helmet models, Bullard ear/neck and face protection is offered in Nomex® and PBI/Kevlar® options. Flame-retardant facedoek and moisture barrier options enhance the comfort and protection needed for any fire and rescue condition.

www.bullard.com
Leather Fronts. Reimagined.
Bullard's reengineered leather fronts accommodate up to 22 bold characters. These rugged, high quality leather fronts are available in four (4) distinct styles with strong, crisp stitching. Choose from patent-leather or flat-finish genuine leather.

Badges and Ornamentation
Customize your department's head protection for increased visibility, quick on-scene accountability, and promotion. Choose from a variety of options; special customization available upon request. Visit www.BuildYourBullard.com to build the leather front that meets your needs.
