Wildfire® Series Fire Helmet

The leader in wildland firefighting.

Wildfire® Series fire helmets are designed Bullard Tough for extreme conditions of wildland firefighting. The tough shell, lightweight and compact design are the industry standard for wildland firefighters. Now, with an even more comfortable suspension and an extra-large full-brim shell.

Tough and Durable
The shell of the Wildfire helmet is made of high-heat thermoplastic. This thermoplastic provides unparalleled impact and penetration resistance in wildfire conditions. Several styles of Nomex® ear and neck protectors are available for increased protection.

NFPA Approved
Wildfire helmets exceed the NFPA 1977, Standard on Protective Clothing and Equipment for Wildland Fire Fighting. Bullard Wildfire models also exceed all major state fire codes for wildland firefighting.

Versatile
Wildfire helmets are available in cap and full-brim hat styles. Standard features include goggle retainer clips for securing eye protection and Scotchlite® reflective stripes for increasing wearer visibility.

Superior Comfort and Fit
Wildfire helmets are designed for exceptional balance, comfort, and stability. Now with a more comfortable suspension, the helmet offers wearers:

• Secure suspension attachments;
• Simple headband adjustments for a custom fit;
• Seamless suspension straps;
• Larger replaceable pillowed brow pad; and
• Leather ratchet cover.

Easy-install suspension keys allow the suspension to lock into the shell with an audible click. Vertical height adjustments can be easily changed for a custom fit, and the floating headband offers a comfort fit for all shapes and sizes. For added comfort, the replaceable, extra-large pillowed brow pad offers generous padding.

In March 2008, Bullard revised the suspension system in the Wildfire series. Replacement suspensions for current-style and older helmets are listed below.

Wildfire® Series
Fire Helmet

Which Suspension?
The date code indicates when the hat was molded. The large arrow inside the "Month / Year" circle points to the month, and the two digits inside that inner circle indicate the year. You can find the date code on the inside of the shell or the underside front brim of the hat / cap under the UBG sticker.

FH911C Wildfire® Helmet NFPA 1977 and ANSI/ISEA Z89.1, TYPE I, CLASS E & G
- Cap-style thermoplastic shell
- 3 goggle clips (FSGC)
- 4 Scotchlite® lime-yellow stripes (RS36) or red-orange (RS37)
- Adjustable chinstrap (R50)
- 6-point suspension (FRS6PC)
- Cotton brow pad (RBPCOTTON)
- 3 velcro material attachment strips inside shell

FH911CR Wildfire Helmet NFPA 1977 and ANSI/ISEA Z89.1, TYPE I, CLASS E & G
Same as Model FH911C with:
- Sure-Lock® ratchet suspension (FRS6RC)
- Leather ratchet cover (R160)

FH911H Wildfire Helmet NFPA 1977 and ANSI/ISEA Z89.1, TYPE I, CLASS E & G
Same as Model FH911C with full-brim thermoplastic shell

FH911HR Wildfire Helmet NFPA 1977 and ANSI/ISEA Z89.1, TYPE I, CLASS E & G
Same as Model FH911CR with full-brim thermoplastic shell

FH911XL Wildfire Helmet NFPA 1977 and ANSI/ISEA Z89.1, TYPE I, CLASS E & G
Same as Model FH911HR with extra-large full-brim thermoplastic shell and adjustable chinstrap (R51)

Technical Specifications
Dimensions: Cap 11 ¾" L x 9 ¼" W x 6 ¼" H
Hat 12 ½" L x 10 ¼" W x 6 ½" H
XL Hat 13 ¾" L x 11 ½" W x 6 ½" H
Weight: Cap 17 oz; Hat 20 oz; XL Hat 22 oz
Suspension: 6-Point Nylon Crown Strap
Outer Shell Material: Thermoplastic
Warranty: Two years from date of manufacture, all components

Wildfire Colors:
- black
- red
- white
- lime grey
- yellow
- blue
- orange

NOTE: FH911XL only available in red, white, and yellow
