

High Heat 911H

Bid Specs

Bid Summary: The Bullard Model 911H is a full brim hard hat designed specifically for high heat applications. It is offered with the option of either a pinlock or ratchet suspension which features a replaceable padded cotton brow pad. The suspension system has six points of attachment with six separate keys for a secure fit and 1" wide crown straps for comfort.

Specific Features:

- Hat style helps protect against splash, glare, and sun exposure.
- Thermoplastic shell - has higher heat resistance than polyethylene.
- Your choice of either the self-sizing 6-point pinlock suspension (FRS6PC) or 6-point dielectric, Sure-Lock[®] ratchet suspension (FRS6RC). The 6-point suspension system provides a comfortable, secure fit and allows for the distribution of energy over three crossed straps attached at 6 points.
- Suspensions:
 - Incremental sizing of 1/16" hat size (5mm) makes a secure fit easy.
 - Suspensions can be adjusted between hat sizes 6 1/2" - 8".
 - Vertical adjustment capability (two in front, two on side, three in rear) for a secure fit to different head sizes.
 - Floating headband to allow for better balance and fit with better head sizes.
- Replaceable padded cotton brow pad.
- Wide (1") crown straps provide more comfort and will help the suspension system absorb energy. The round, wide crown area also allows for maximum ventilation.
- Pad print capability in up to eight different locations on the hat – logos may have up to six colors per location.
- Available in five standard colors: red, white, blue, orange & yellow.
- Two-year warranty. Bullard's reputation can be seen in the attention to detail on comfort and fit.
- Distinctive Three-Rib trademark.
- Made in the USA
