² **PROTECTION**

- HE - High Efficiency Particulate Air Filter for Powered Air Purifying Respirators
- AM - Ammonia
- CD - Chloride dioxide
- CL - Chlorine
- FM - Formaldehyde
- HC - Hydrogen chloride
- HF - Hydrogen fluoride
- MA - Methylamine
- OV - Organic Vapors
- SD - Sulfur Dioxide

² **CAUTIONS AND LIMITATIONS**

A. Not for use in atmospheres containing less than 19.5% oxygen.
B. Not for use in atmospheres immediately dangerous to life or health.
C. Do not exceed maximum use concentrations established by regulatory standards.
D. Do not exceed maximum use concentrations established by regulatory standards.
E. Do not use powered air-purifying respirators if airflow is less than four cfm (115 lpm) for tight-fitting facepieces or six cfm (170 lpm) for hoods and / or helmets.
F. Follow established cartridge and canister change schedules, or observe ESLI to ensure that cartridges and canisters are replaced before breakthrough occurs.
G. Contains electrical parts that may cause an ignition in flammable or explosive atmospheres.
H. Failure to properly use and maintain this product could result in injury or death.
