

TEST THE BEST! PAPR PROGRAM

Your Free PAPR is Waiting...

Your organization may be eligible to upgrade your PAPR with the EVA respirator. **Bullard will replace your current PAPRs with new Bullard PAPRs at no charge.***

Now is the time to try EVA!
(*1 for 1 replacement blower)

Have You Been Wanting to Try Sightline? Now is the time!

Partnered with Bullard's legendary PAPR, EVA, Sightline addresses long-standing pain points faced by life science workers such as limited visibility, awkward mobility, and constricted space for the face and eyewear.

Comfort You Can Feel

EVA Powered Air-Purifying Respirator (PAPR) is equipped with the technology for providing wearers with constant airflow in a compact, streamlined, lightweight, ergonomic form for added comfort.

Versatile Protection

Available with a High Efficiency HEPA filter, organic vapor cartridge / filter combo, or chemical cartridge / filter combo.

Active Air Flow

Active flow technology maintains blower speed as filter or cartridge resistance increases.
